

Equivalent Fractions

Year 5-6: The year 5-6 class were learning about "Equivalent Fractions" in their maths lesson. Mrs Tree decided that seeing is believing, so she brought in some items to help

with this. The students each received a slice of bread, then they had to butter it and sprinkled it with hundreds and thousands!! —Fairy Bread!!!! Students were then

asked to cut these halves, then into quarters, eighths and so on. Some students made squares while others made triangles. The students had to work out if a student ate 2 quarters of their fairy bread and other students ate 4 eighths which student would be the happiest with the most! After much discussion they all agreed this would be the same. All

students enjoyed this as they were able to eat it afterwards. Great lesson Mrs Tree.

Buddy Reading

Students in the 5-6 class met up with the Prep-1-2 class students to read them a story. The older students really enjoyed the chance to "show off" their reading skills to their peers. You can see by the photos that the younger students absolutely enjoyed this.

Friday 16th March "Bullying. No Way!" was held all over Queensland. Students wore orange and received a band to wear and learnt the strong message that bullying will not be tolerated. Students brought in \$1 to have thumbnails painted orange.

We raised \$44.20 on the day. Thankyou.

BULLYING. NO WAY!
SAFE AUSTRALIAN SCHOOLS.
TOGETHER.

Prep-1-2-3 students walked to the BRAG on Wednesday 21st to see the award winner Jeannie Baker's work. The new book that has just been released is called 'Circle'. As the students followed the collaged pictures which were on the wall they were amazed that this author is also an illustrator of a different kind. The author starts by using collage to put her pictures together, takes a photo of this work, then writes the story. The end result is just wonderful. The students were able to make a collage for themselves, which we will place in the Library. Rebecca said our students were very well behaved and are welcome back anytime.
